

MEDIA STATEMENT: MARKET-LED PROPOSAL FOR DONCASTER BUS RAPID TRANSIT

8 June 2017

Leading global public transport company Transdev and infrastructure investor John Laing welcome the opportunity provided by the Victorian Government through its market-led proposal process.

The process allows the private sector to put forward potential infrastructure solutions for Victoria and Victorians.

The Doncaster Bus Rapid Transit project is a proposal only at this stage. Elements of the proposal would evolve through extensive engagement with the community and other stakeholders should the Victorian Government support the further development of the proposal.

Bus Rapid Transit separates purpose-built, high-capacity buses from other traffic such as cars and trucks via a dedicated lane that provides full right of way. Transdev is involved in successful bus rapid transit operations in Bogotá in Columbia, and the French cities of Rouen and Nantes.
